

Children's Swimming Lessons

Whether you want piece of mind whilst away on holiday that your child is safe in the water or whether your child would like to learn more skills or swim more competitively. From beginners to advanced here at Nemo Swimming School we have developed a fantastic learn to swim programme to get your child motivated about swimming. We run different classes with different age groups and this helps us to maintain individual attention to your child. The instructor is in the water most of the time to ensure safety and confidence for your child.

By learning in small group class sizes your child will learn to swim much faster and this in turn will keep them happier and more motivated to swim.
